NFIP Support for Contingency Operations - [REDACTED]

- Work has resumed on the final report and with [REDACTED] returning from leave this week, the pace should accelerate. Paul and Tony hope to have a strawman to the working group members by mid-September--with coordination meetings and visits to a few relatively nearby commands to follow. [REDACTED]

- [REDACTED] continues to come in on the weekends to complete the programming necessary for a prototype demonstration of our Collection Strategy Evaluation Method. He reports: "My best guess is that I have two working days" of work remaining. After Mark is done, we will only need to master the machine operations to convert our tabular displays to information reports--pie charts, etc.

Intelligence Support to SDI - [REDACTED]

25X1

- Rich has provided [REDACTED] with detailed recommended changes to the PPS summary of Community responses to the SDIO's statement of requirements. In effect, Rich proposed that PPS confine its draft

25X1 response to the SDIO to an interim status report, noting that the PPS "findings" would be coordinated through the CIPC Working Group before being shared with D/SDIO and senior Community officials. [redacted] subsequently informed Rich that PPS management had instructed him to restructure his report and add some additional details. Rich requested that he reconsider the advantages of using the CIPC SDI Working Group as a coordinating mechanism. Meanwhile, we are proceeding full speed in developing our study. As a matter of act, we will be reconvening a series of intensive sessions during September to review a strawman version of our report.

Miscellaneous

- Dr. Craig Fields, Chief Scientist of DARPA, chaired the first meeting on the IR&DC quick reaction study on Intelligence High Technology Possibilities for Low Intensity Conflicts on 25 August. Rich attended the meeting for Paul, who will be the IC Staff representative for the effort. Paul was attending a meeting on [redacted] at the time. [redacted]
